**Independent Auditor's Report**

Board of Directors  
Fossil Ridge Metropolitan District No. 3  
Jefferson County, Colorado

**Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities and each major fund of Fossil Ridge Metropolitan District No. 3 as of and for the year ended December 31, 2013, which collectively comprise the District's basic financial statements, as listed in the table of contents. These financial statements are the responsibility of the District. Our responsibility is to express opinions on these financial statements based on our audit.

**Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

**Auditor's Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Fossil Ridge Metropolitan District No. 3 as of December 31, 2013, and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

## **Other Matters**

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinions on the basic financial statements are not affected by this missing information.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's financial statements as a whole. The supplementary information as listed in the table of contents is presented for purposes of legal compliance and additional analysis and is not a required part of the financial statements. The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

## FOSSIL RIDGE METROPOLITAN DISTRICT NO. 3

### Notes to Financial Statements December 31, 2013

#### Note 1: Summary of Significant Accounting Policies

The accounting policies of the Fossil Ridge Metropolitan District No. 3 (“District”), located in Jefferson County, Colorado, conform to the accounting principles generally accepted in the United States of America (“GAAP”) as applicable to governmental units. The Governmental Accounting Standards Board (“GASB”) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The following is a summary of the more significant policies consistently applied in the preparation of financial statements.

#### Definition of Reporting Entity

The District was organized October 10, 2006, as a quasi-municipal organization established under the State of Colorado Special District Act. At the time of formation, the Fossil Ridge Metropolitan District No. 1 (“District No. 1”) and the Fossil Ridge Metropolitan District No. 2 (“District No. 2”) were also formed. All three districts are governed by the same Service Plan (as amended by the Second Amended and Restated Service Plan approved by the City of Lakewood on August 27, 2007), which provides that District No. 1 is the “Operating District” and the District and District No. 2 are the “Taxing Districts”. The Taxing Districts are to provide funding to the Operations District for the construction, operation and maintenance of various public improvements and the Operating District is expected to manage such construction, operation and maintenance. The District's primary revenues are property taxes. The District is governed by an elected Board of Directors.

As required by GAAP, these financial statements present the activities of the District, which is legally separate and financially independent of other state and local governments. The District follows the GASB, Statement No. 61, *The Financial Reporting Entity: Omnibus, which amended GASB Statement No. 14, The Financial Reporting Entity* and GASB Statement No. 39, *Determining Whether Certain Organizations are Component Units*, which provides guidance for determining which governmental activities, organizations and functions should be included within the financial reporting entity. GASB sets forth the financial accountability of a governmental organization's elected governing body as the basic criterion for including a possible component governmental organization in a primary government's legal entity. Financial accountability includes, but is not limited to, appointment of a voting majority of the organization's governing body, ability to impose its will on the organization, a potential for the organization to provide specific financial benefits or burdens and fiscal dependency. The pronouncements also require including a possible component unit if it would be misleading to exclude it.

The District is not financially accountable for any other organization. The District has no component units as defined by the GASB.

The District has no employees and all operations and administrative functions are contracted.

## FOSSIL RIDGE METROPOLITAN DISTRICT NO. 3

### Notes to Financial Statements December 31, 2013

#### Recently Adopted Accounting Pronouncements That Could Affect This District

In March 2012, the GASB issued Statement 65, *Items Previously Reported as Assets and Liabilities*. GASB 65 establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognize, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. The statements also limits the use of the term deferred to items reported as deferred outflows of resources or deferred inflows of resources. The provisions of this Statement are effective for financial statements for periods beginning after December 15, 2012 although the District elected to early implement GASB Statement 65 in fiscal year 2012.

In November 2010, the GASB issued Statement 61, *The Financial Reporting Entity: Omnibus an amendment of GASB Statements No. 14 and No. 34*. GASB 61 provides additional criteria for classifying entities as component units to better assess the accountability of elected officials by ensuring that the financial reporting entity includes only organizations for which the elected officials are financially accountable or that are determined by the government to be misleading to exclude. This statement is effective for periods beginning after June 15, 2012. The District has adopted Statement 61.

#### Recently Issued Accounting Pronouncements That Could Affect This District

There are no recently issued accounting pronouncements that could affect this District.

#### Basis of Presentation

The accompanying financial statements are presented per GASB Statement No. 34 - Special Purpose Governments.

The government-wide financial statements (i.e. the governmental funds balance sheet/statement of net position and the governmental funds statement of revenues, expenditures, and changes in fund balances/statement of activities) report information on all of the governmental activities of the District. The statement of net position reports all financial and capital resources of the District. The difference between the (a) assets and deferred outflows of resources and the (b) liabilities and deferred inflows of resources of the District is reported as net position. The statement of activities demonstrates the degree to which expenditures/expenses of the governmental funds are supported by general revenues. For the most part, the effect of interfund activity has been removed from these statements.

## FOSSIL RIDGE METROPOLITAN DISTRICT NO. 3

### Notes to Financial Statements December 31, 2013

The statement of activities demonstrates the degree to which the direct and indirect expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Major individual governmental funds are reported as separate columns in the fund financial statements.

#### Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are collected.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. The material sources of revenue subject to accrual are property taxes and interest. Expenditures, other than interest on long-term obligations, are recorded when the liability is incurred or the long-term obligation is paid.

The District reports the following major governmental fund:

Debt Service Fund – The Debt Service Fund is used to account for all financial resources that are restricted, committed or assigned to expenditures for principal, interest and other debt related costs. The resources are transferred to District No. 1 for payment to the bondholders.

#### Budgetary Accounting

Budgets are adopted on a non-GAAP basis for the governmental funds. In accordance with the State Budget Law of Colorado, the District's Board of Directors holds public hearings in the fall of each year to approve the budget and appropriate the funds for the ensuing year. The District's Board of Directors can modify the budget by line item within the total appropriation without

## FOSSIL RIDGE METROPOLITAN DISTRICT NO. 3

### Notes to Financial Statements December 31, 2013

notification. The appropriation can only be modified upon completion of notification and publication requirements. The budget includes each fund on its basis of accounting unless otherwise indicated. The appropriation is at the total fund expenditures level and lapses at year end.

Subsequent to the end of the year, the District modified its appropriation in the Debt Service Fund from \$382,500 to \$383,598 due to the receipt of additional specific ownership taxes.

#### Assets, Liabilities and Net Position

##### Estimates

The preparation of these financial statements in conformity with GAAP requires the District management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

##### Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District has no items that qualify for reporting in this category.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has one type of item that qualifies for reporting in this category. This item is deferred property taxes. Deferred property taxes are deferred and recognized as an inflow of resources in the period that the amounts become available.

##### Property Taxes

Property taxes are levied by the District's Board of Directors. The levy is based on assessed valuations determined by the County Assessor generally as of January 1 of each year. The levy is normally set by December 15 by certification to the County Commissioners to put the tax lien on the individual properties as of January 1 of the following year. The County Treasurer collects the determined taxes during the ensuing calendar year. The taxes are payable by April or if in equal installments, at the taxpayers' election, in February and June. Delinquent taxpayers are notified in July or August and the sales of the resultant tax liens on delinquent properties are generally held in November or December. The County Treasurer remits the taxes collected monthly to the District.

## FOSSIL RIDGE METROPOLITAN DISTRICT NO. 3

### Notes to Financial Statements December 31, 2013

Property taxes, net of estimated uncollectible taxes, are recorded initially as deferred inflows in the year they are levied and measurable since they are not normally available nor are they budgeted as a resource until the subsequent year. The deferred property taxes are recorded as revenue in the subsequent year when they are available or collected.

#### Fund Equity

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. Because circumstances differ among governments, not every government or every governmental fund will present all of these components. The following classifications make the nature and extent of the constraints placed on a government's fund balance more transparent:

#### Nonspendable Fund Balance

Nonspendable fund balance includes amounts that cannot be spent because they are either not spendable in form (such as inventory or prepaids) or are legally or contractually required to be maintained intact.

#### Restricted Fund Balance

The restricted fund balance includes amounts restricted for a specific purpose by external parties such as grantors, bondholders, constitutional provisions or enabling legislation.

#### Committed Fund Balance

The committed fund balance includes the portion of fund balance that can only be used for specific purposes pursuant to constraints imposed by a formal action of the government's highest level of decision-making authority, the Board of Directors. The constraint may be removed or changed only through formal action of the Board of Directors.

#### Assigned Fund Balance

Assigned fund balance includes amounts the District intends to use for a specific purpose. Intent can be expressed by the District's Board of Directors or by an official or body to which the Board of Directors delegates the authority.

#### Unassigned Fund Balance

Unassigned fund balance includes amounts that are available for any purpose. Positive amounts are reported only in the General Fund, all funds can report negative amounts.

For the classification of Governmental Fund balances, the District considers an expenditure to be made from the most restrictive first when more than one classification is available.

## FOSSIL RIDGE METROPOLITAN DISTRICT NO. 3

### Notes to Financial Statements December 31, 2013

#### Net Position

Net Position represents the difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources. The District reports three categories of net position, as follows:

Net investment in capital assets – consists of net capital assets, reduced by outstanding balances of any related debt obligations and deferred inflows of resources attributable to the acquisition, construction, or improvement of those assets and increased by balances of deferred outflows or resources related to those assets.

Restricted net position – net position is considered restricted if their use is constrained to a particular purpose. Restrictions are imposed by external organizations such as federal or state laws. Restricted net position is reduced by liabilities and deferred inflows of resources related to the restricted assets.

Unrestricted net position – consists of all other net position that does not meet the definition of the above two components and is available for general use by the District.

When an expense is incurred for purposes for which both restricted and unrestricted net position are available, the District will use the most restrictive net position first.

#### Note 2: Long-Term Debt

##### Amended and Restated Joint Funding Agreement

On September 1, 2009, the District entered into a Joint Funding Agreement with Districts No. 1 and No. 2 to provide for the payment to the trustee of certain property taxes and specific ownership taxes collected by the District and No. 2 for the purpose of paying debt service on District No. 1's Series 2009 Bonds. An Amended and Restated Joint Funding Agreement was approved on September 1, 2010 which allowed for the payment of the debt service related to District No. 1's Series 2010 Bonds.

##### Debt Authorization

As of December 31, 2013, the District had remaining voted debt authorization of approximately \$712,325,000. The District has budgeted to issue new debt during 2014. District No. 1 issued \$7,000,000 of Series 2009 Tax-Supported Revenue Bonds and subsequently refunded those bonds with an issue of \$8,350,000 Series 2010 Tax-Supported Revenue Refunding Bonds. Per the District's Service Plan, the District, in combination with Districts No. 1 and No. 2, cannot issue more than \$91 million in revenue debt, of which \$70 million of such authorization may be allocated to general obligation debt.

## FOSSIL RIDGE METROPOLITAN DISTRICT NO. 3

### Notes to Financial Statements December 31, 2013

Note 3: District Agreements

Master Intergovernmental Agreement

On January 8, 2008, the District entered into a Master Intergovernmental Agreement with District No. 1 and District No. 2. Per the agreement, District No. 1 is to construct, own, maintain and operate the facilities benefiting the District and District No. 2, which may include the borrowing of funds or issuance of revenue bonds. The District and District No. 2 are to pay all costs related to the construction, operation, and maintenance of such facilities, including the payment of amounts owing in connection with bonds issued to finance such facilities. Such financial obligations are to be paid from the District's annual certification of a mill levy, subject to the limitations of the Service Plan and not to exceed 50 mills. The IGA also sets forth certain provisions pertaining to the processes for payment of capital, operations and maintenance costs, review of budgets and project plans, execution of construction contracts, administrative management, establishment of user fees, and the transfers of funds between districts.

Reimbursement of Developer Loan and Public Infrastructure Acquisition Agreement

On May 13, 2008, District No. 1 entered into a Reimbursement of Developer Loan and Public Infrastructure Acquisition Agreement with Brookfield Residential (Colorado), LLC, formerly Carma (Colorado), Inc. ("Developer"). The agreement provides for the advancement by the Developer of certain moneys for capital improvements, and operating and maintenance costs for an amount not to exceed \$91,000,000. The agreement also provides for the repayment of these advances using bond proceeds and or with any legally available funds. These advances shall bear interest at a rate of 6% per annum from the date of the advance. The agreement also provides for the District No. 1 to acquire any public improvements constructed by the Developer upon receipt of the proper engineer's certificate as to district eligibility. The repayment obligations by District No. 1 constitute a multiple fiscal year financial obligation and are not subject to annual appropriation. The agreement states that it is between District No. 1 and the Developer. However given the provisions of the Master IGA, the District and District No. 2 are impacted from certain covenants contained therein.

Note 4: Related Party

All of the Board of Directors are employees, owners or are otherwise associated with the Developer, and may have conflicts of interest in dealing with the District. Management believes that all potential conflicts, if any, have been disclosed to the Board.

## FOSSIL RIDGE METROPOLITAN DISTRICT NO. 3

### Notes to Financial Statements December 31, 2013

Note 5: Tax, Spending and Debt Limitations

Article X, Section 20 of the Colorado Constitution, commonly known as the Taxpayer Bill of Rights (“TABOR”), contains tax, spending, revenue and debt limitations which apply to the State of Colorado and all local governments.

Spending and revenue limits are determined based on the prior year’s Fiscal Year Spending adjusted for allowable increases based upon inflation and local growth. Fiscal Year Spending is generally defined as expenditures plus reserve increases with certain exceptions. Revenue in excess of the Fiscal Year Spending limit must be refunded unless the voters approve retention of such revenue.

TABOR requires local governments to establish Emergency Reserves. These reserves must be at least 3% of Fiscal Year Spending (excluding bonded debt service). Local governments are not allowed to use the emergency reserves to compensate for economic conditions, revenue shortfalls, or salary or benefit increases. The District has no General Fund as all operating costs are paid by District No. 1 and therefore has no 3% reserve.

The District’s management believes it is in compliance with the provisions of TABOR. However, TABOR is complex and subject to interpretation. Many of the provisions, including the interpretation of how to calculate Fiscal Year Spending limits will require judicial interpretation.

On November 7, 2006, a majority of the District’s electors authorized the District to collect and spend or retain in a reserve all currently levied taxes and fees of the District without regard to any limitations under Article X, Section 20 of the Colorado Constitution.

Note 6: Risk Management

Except as provided in the Colorado Governmental Immunity Act, 24-10-101, et seq., CRS, the District may be exposed to various risks of loss related to torts, theft of, damage to, or destruction of assets; errors or omissions; injuries to agents; and natural disasters. The District has elected to participate in the Colorado Special Districts Property and Liability Pool (“Pool”) which is an organization created by intergovernmental agreement to provide common liability and casualty insurance coverage to its members at a cost that is considered economically appropriate. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years.

The District pays annual premiums to the Pool for auto, public officials’ liability, and property and general liability coverage. In the event aggregated losses incurred by the Pool exceed its amounts recoverable from reinsurance contracts and its accumulated reserves, the District may be called upon to make additional contributions to the Pool on the basis proportionate to other members. Any excess funds which the Pool determines are not needed for purposes of the Pool may be returned to the members pursuant to a distribution formula.

#### NOTE

Property taxes collected in any one year include collection of delinquent property taxes levied and/or abatements or valuations in prior years. Information received from the County Treasurer does not permit identification of specific year assessment.
